e-mail: m.wojasinski@ichip.pw.edu.pl

Keywords: up to 5 keywords - the most relevant to the subject of the article

ABSTRACT

Information in this document describes the formatting and manuscript preparation for Scientific article and Monograph article.

The title of the paper should be written in 12 points Times New Roman, bolded, centered. Please, avoid using of capitalization or capital letters for the beginning of each word. Please, indicate the corresponding author by asterisk (*). Affiliations of the authors should be indicated by superscript if they are different. E-mail address should be provided only for corresponding author of the paper. Authors, affiliations and e-mail address should be written in 11 points Times New Roman, justified). Keywords should be written in 11 points Times New Roman, italic, justified, and a word “keywords” should be bolded.

For main text of the abstract and article please use 11 points Times New Roman, justified, with tabulation of 1.25 cm for the first line. Use line spacing of 1.15 for whole document. Scientific article should be at least 10000 characters long (with spaces), B5 format: 17.6/25.0 cm with margins: bottom 2 cm, top 2 cm, left 3 cm, right 2 cm. Monograph article should be at least 20000 characters long (with spaces), B5 format: 17.6/25.0 cm with margins: bottom 2 cm, top 2 cm, left 3 cm, right 2 cm. Abstract for the articles should be about 500-600 characters long (with spaces). **The file format for the articles must be .docx.**

HEADING OF THE SECTION

Please use Times New Roman font, bolded, 11 points, capitalized for headings of the sections: abstract, introduction, etc. If you would like to provide any subsections, please use the same font but without capitalization. It is preferable to use IMRAD organization of paper – for original scientific work, which means: introduction, materials and methods, results and discussion sections. In case of monograph article it is possible to write a review paper. In this case, the headings of each section might be named differently than in

IMRAD organization. However, please keep in mind that review article must contain an abstract, introduction, and discussion sections.

Heading of the subsection

The main text of the scientific article should be written in 11 points Times New Roman font, justified. For tables, please use 9 points font and make sure your graphics are properly prepared for print.

Formulas and graphics should be centered and prepared with font the same as the main text of the article. Please, keep your formulas numbered and keep the numbers aligned to right.

All letters and legends in figures should be formatted in the way making them visible, even after the reduction of the graphics' size. Figures and tables should be embedded into the text, logically placed when they appear in writing. Please, keep citations for figures taken from literature.

Figures put in the article should be prepared with 300DPI resolution in grey-scale (or black/white) with white background if it is possible. The fonts should be corrected with size (may be bolded) to make the graphic more readable. Additionally, please enclose all graphics used in the paper to the materials send to the EYEC Monograph Editor. All graphic files should be in .jpg format. If you will have problems with sending all graphics, please contact the editor to use some third party support (e.g. dropbox).

Figures and tables should be numbered consecutively. Please keep separate numbering order for tables, figures and formulas, respectively. Description of the figure should be placed below it. Description of the table should be place over it. All descriptions must be centered.

Literature references must be marked in text with numbers in square brackets: [1], and presented at the end of the article as a list numbered in order of appearance. It is preferable to add the DOI number for all cited papers (if it is possible). Ways of references formatting are presented below.

Additional information:

1. All papers should be prepared according to all templates posted on www.eyec.ichip.pw.edu.pl website. Papers that do not meet all criteria in the templates, after the review process, will be sent to the authors for additional formatting. Review process will mainly take into account the scientific value of the papers. Only poor written or scientifically poor papers will be rejected.
2. Please send us your papers by e-mail: eyec.monograph@ichip.pw.edu.pl.
3. EYEC Monograph 2014 will be published in paper and on-line at www.eyec.ichip.pw.edu.pl Please consider this information while preparing your work to be published.
4. Please remember that:
 - Abstract is an obligatory form of scientific communication on EYEC;
 - You can prepare: scientific article, monograph article or any combination of two of them (please contact us when you decide to write more than one paper);
 - The monograph article might be a review paper.
5. All papers: scientific article, monograph article; will be reviewed by Scientific Committee of 4th EYEC. The decision of the paper acceptance will be send to the corresponding author by an e-mail. The review process should take about one month since the paper submission deadline. After that, the Editor will give you one month to perform the revision of the paper (if needed).
6. If you find any of the requirements confusing, please contact with EYEC Monograph 2014 Editor: eyec.monograph@ichip.pw.edu.pl
